23rd ANNUAL
Healthcare Marketing & Physician Strategies Summit
April 30 - May 2, 2018 | Salt Lake City, UT

IMS Health & Quintiles are now IQVIA™
Dear Colleague:

Today, consumers are actively seeking better ways to access the information and tools they need to control and improve their health. What better time than now to take a good look at how you can best position your organization, your physicians, and yourself to facilitate the conversation?

How can you improve marketing strategy, messaging, and positioning to help consumers access the information and services they need? How do you build relationships with consumers, patients, and physicians to drive growth and build loyalty? What is the best way to improve communications with all stakeholders — internal and external — to ensure a better overall experience? What does it take to mesh the use of data, analytics, and metrics with the need to improve lives?

The 23rd Healthcare Marketing & Physician Strategies Summit explores all of these issues and more. Through more than 50 cutting-edge sessions across six tracks, the Summit examines the latest technologies, trends, and business models as well as the rapid transformation that marketers, strategists, and physician relations executives are experiencing today.

On behalf of the Forum for Healthcare Strategists, we extend a very special invitation to you to attend this Summit. Join your colleagues to solve today’s most important healthcare marketing and physician relationship challenges — and to look towards the future!
